

Gtk::ImageMenuItem

```
classDiagram
    class Gtk::ImageMenuItem
    class VBA::ImageMenuItem {
        + ImageMenuItem()
        + ImageMenuItem()
        + ImageMenuItem()
        + ImageMenuItem()
        + set_accel_key()
    }
    VBA::ImageMenuItem --|> Gtk::ImageMenuItem
```

The diagram illustrates a class hierarchy. At the top is the 'Gtk::ImageMenuItem' class, represented by a white box with a black border and two empty internal compartments. Below it is the 'VBA::ImageMenuItem' class, represented by a grey box with a black border and two compartments. The bottom compartment of the 'VBA::ImageMenuItem' class contains a list of five methods, each preceded by a '+' sign. A blue arrow with a hollow triangular head points from the 'VBA::ImageMenuItem' class up to the 'Gtk::ImageMenuItem' class, indicating that 'VBA::ImageMenuItem' inherits from 'Gtk::ImageMenuItem'.
